Education

Minnesota State University, Mankato — Mankato, MN
Bachelor of Science in Computer Information and Technology; Minor in Mathematics — *Expected: May 2026*
Certificate in Database Technologies
Certificate in Software Development

Minnesota State University, Mankato — Mankato, MN
Master of Science in Data Science — *Expected: May 2027*

Accomplishments:

Dean's List: Spring 2022, Fall 2023 (Top 10% of class)

Member, Alpha Lambda Delta Honor Society for Academic Excellence Recipient, Minne Analytics and Federated Insurance Scholarships for IT

Experience

Full-Stack Software Engineer — Aug 2023 – Present
Rizzy Pokémon Shop (E-Commerce Platform)

- Engineered a full-stack e-commerce application using **JavaScript, Node.js, Express, HTML/CSS**, enabling end-to-end product browsing, cart management, and checkout
- Designed and deployed **10+ RESTful APIs, following RESTful API design principles** with **Express and PostgreSQL**, supporting dynamic product, user, and transaction workflows
- Integrated **Stripe API** to implement secure, fault-tolerant payment processing with **100% successful transaction handling**
- Built responsive UI components and **optimized client-side interactions, improving usabilit**y and performance across devices
- Architected modular backend structure, reducing debugging time by **~30%** and improving maintainability

Data Science / Machine Learning Research Experience — Oct 2023 – Present
Minnesota State University, Mankato

- Developed an end-to-end credit risk prediction system using **20,000+ loan records** to estimate probability of loan default.
- **Preprocessed and engineered financial and demographic features,** applying scaling and stratified train/test splitting to ensure reliable evaluation.
- Trained and evaluated **Logistic Regression and Random Forest models**, analyzing precision, recall, F1-score, and confusion matrix tradeoffs.
- Prioritized recall to reduce false-negative high-risk borrowers, aligning model evaluation with real-world financial risk costs.

Overnight Stocker Associate — May 2023 – Dec 2025
Walmart

- Managed inventory restocking and organization across **15+ aisles per shift** while ensuring workflow efficiency
- Collaborated with **a team of 10+ associates** to meet restocking goals ahead of schedule by **20%** weekly.
- Applied process optimization techniques reducing product **retrieval time by 15%**

Projects

Retail Sales Dashboard — Data Analytics Project | *Power BI, Excel* — Jan 2026

- Cleaned and prepared retail sales data in Excel by removing duplicates, validating numeric fields, and standardizing formats across **9,900+ records**.
- Built a **two-page interactive** Power BI dashboard featuring KPIs, slicers, and drill-down analysis by region, category, ship mode, and city.
- Designed **executive-level overview** and detailed breakdown views to support business decision-making.
- Implemented **cross-filtering and dynamic visuals enabling** real-time data exploration.

Leap of Ages | *Unity, C#, Game Development* — Oct 2022

- Developed a 2D platformer with progressive level difficulty, incorporating enemy AI and dynamic physics simulation.
- Optimized frame rendering, improving performance by **25 FPS** across test environments.
- Presented at CADSCOM 2022 Project Showcase; recognized for innovative level design and gameplay flow.

Technical Skills

Programming Languages: Python, C#, C++, JavaScript, HTML/CSS, SQL

Frameworks: Node.js, Express.js, .NET, Flask

Tools: Git, GitHub, Visual Studio, VS Code, Jupyter Notebook, Excel, Microsoft Office, Unity, Unreal Engine

Libraries: NumPy, Pandas, Matplotlib, Scikit-learn, Scrapy, ipykernel

Databases: MySQL, SQL Server, PostgreSQL

Skills: Data Cleaning, Data Visualization, Dashboard Design, Business Intelligence (BI), KPI Development, Data Modeling, Exploratory Data Analysis (EDA), Feature Engineering, Supervised Learning, Classification, Model Evaluation, Git, GitHub
